Education

University of Illinois Chicago (UIC)

May 2025

Bachelor of Science in Computer Science – Software Engineering Concentration

GPA: 3.2

Extracurricular: Robotics Club - Fall 2021, Campus Outreach - Fall 2021

Work Experience

Northrop Grumman - Software Engineer

December 2025 - Present

- Rapidly acquired proficiency in Fortran, Ada, and a legacy codebase of more than 1.2 million lines within two months, then contributed to development of multiple subsystems within the larger software system.
- Built working knowledge of Air Force mission operations to support development of simulation software that models real-world scenarios, translating operational needs into fixes and enhancements for more reliable ticket resolution.
- Earned a BRAVO Award within 6 months for proactively resolving a critical ticket three days before the code deadline, helping keep the release on schedule.

Prospect Airport Services - Passenger Assistant

July 2023 - June 2025

- Work closely with gate agents to coordinate support for passengers who need extra assistance.
- Provide wheelchair assistance to passengers, ensuring they reach their gate or plane seat safely and comfortably.

UIC Recreation Center - Field Supervisor

February 2023 - May 2025

- Supervised multiple sports events and games at the soccer field, ensuring everything ran smoothly and safely.
- Coordinated and set up equipment and supplies for UIC teams, student clubs, and visiting schools.

H&M - Retail Crew

December 2022 - January 2023

- Organized and maintained store displays and sales floor to keep items neat, stocked, and easy for customers to find.
- Operated the cash register, handled transactions, and ensured a smooth checkout experience.
- Provided friendly, helpful customer service, assisting shoppers with questions, sizes, and product availability.

Starbucks - Barista

June 2022 - August 2026

- Delivered fast, friendly service in a high-volume airport location at O'Hare Airport, preparing and serving customized beverages and food orders for hundreds of travelers per shift while keeping wait times low during peak flight rushes.
- Maintained accurate cash and card transactions, a clean and stocked workstation, and strict food safety and quality standards, helping the team keep service consistent in a fast-paced, time-sensitive environment.

McDonald's - Shift Manager

July 2019 - April 2022

- Led and supported team members during shifts, keeping operations running smoothly and efficiently.
 - Handled customer concerns with professionalism, resolving issues related to food quality, service, or accommodations.
 - Trained and guided crew on best practices for customer service, cleanliness, and safety standards.
-

Leadership Involvement

Society of Hispanic Professional Engineers - Historian

January 2024 - May 2025

- Optimized alumni database management, improving data accessibility and tracking for 100+ members.
- Restructured Drive storage, reducing file search time, and enhanced navigation efficiency for board members.

Ignite UIC Leadership Program - Mentor

September 2022

- Attained a 6-week leadership training, mentoring 3 freshmen on core leadership principles with 100% program completion rate.
- Facilitated weekly sessions and supported freshmen in building connections and enhancing their leadership abilities.
